Ackeron Tree Healing Fruit   _____

- A ruby red fruit obtained from the fallen Ackeron Tree by the Xterminators. The ruby red fruit from this tree affects the consumer like a heal spell (it can be cut into four sections without losing efficacy).
- The flesh of the fruit wipes away injury and afflictions. It immediately ends any and all of the following adverse conditions affecting the consumer: Ability damage, blinded, confused, dazed, dazzled, deafened, diseased, exhausted, fatigued, feeble-minded, insanity, nauseated, wicked, stunned, and poisoned (possibly other conditions at DMs discretion). It also cures up to 110 hit points of damage.
- The fruit will not restore negative levels, restore permanently drained levels, or restore permanently drained ability score points.
- Ref PH page 239 for additional info
